Edsbyn

In his role as a product developer at Edsbyn, Jon uses his creative ability and deep woodworking knowledge to develop new furniture.

Jon has developed Choice Table - a complete table series that meets the needs of all workplaces, users, and businesses.

The system contains few components with different stand solutions, a flexible measuring chain and a wide range of materials.

This creates many opportunities and gives a great deal of freedom to choose the design and function that best suits both users and businesses.

**“Your Choice, few details - many possibilities”**

Regardless of the form of the meeting, working methods or number of people, there is one Choice Table that meets the need in today's and tomorrow's workplaces.

A photograph of a forest floor. Sunlight filters through the dense canopy of trees, creating a bokeh effect of bright, out-of-focus light spots in the background. The foreground is filled with green grass, moss-covered logs, and tree trunks. The overall atmosphere is serene and natural.

Sustainability

Edsbyn strives to be your natural choice when making furniture selections while considering sustainability and care for the environment. We are constantly working to improve our production processes and carefully select all of the raw materials we use.

### ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001. We expect materials from our suppliers to fulfil the criteria for environmental certification – and we require our suppliers to accept ethical and social responsibility, just like Edsbyn does.

#### ISO 14001 – Environmental Management System

An EMS according to ISO 14001 is a systematic and structured approach for all types of organizations to reduce environmental impact, and used in the right way it also supports continuous improvements for the business.

#### ISO 9001 – Quality Management System

The QMS is a tool to reach continuous improvements and adjust the business to meet customers needs. It includes everything from how you meet your customers needs to avoiding malfunctions.

### Certified Products

Certified according to Möbelfakta means:  
Technical quality standards for sustainability, stability, safety and for surface resistance.

Environmental standards for materials and products. The environmental standards primarily relate to raw materials and components used during manufacturing, while the product standards relate to the completed item of furniture.

Producers and subcontractors undertake systematic occupational health and safety work and comply with current occupational health and safety legislation.

# Edsbyn Factory

# Elevating Spaces since 1899

The secret of our success is the ability to change and adapt.

What began in 1899 as a small Joinery Workshop in the community of Edsbyn, grew into one of the largest furniture factories in the Nordics, and over the years our work has been characterised by progressive endeavours.

Between 1934–1984 we produced wooden skis for the Ministry of Defence, Olympic gold winners and families. Out of the waste material we manufactured

windsor chairs, which quickly became a classic and a staple in Swedish homes.

For many years we operated Sweden's first plywood factory and mastered the technique of form-pressed wood. This contributed to the innovative veneer seat for the wooden chair Fanett (1955), which became widely recognised through the collaboration with the Finnish designer Ilmari Tapiovaara.

A close-up photograph of a desk's edge. A dark grey, textured panel is mounted on a wall. Below it, a black metal bracket is attached to the wall, supporting a dark grey desk surface. The bracket has two screws visible. The desk surface is smooth and has a slight bevel. In the background, a blurred outdoor scene with green foliage and a building is visible.

Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Color & Trim displays a small selection of the color schemes our selected materials offer as standard orders. All materials are carefully selected with environmental and sustainability as our top priority.

#### Finish

All the finishes that we offer in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

**Possability to choose wide,  
easy to choose wise.**
