Rocking Chair

Eski Chair

Design Luca Nichetto

“Over the years I have worked with several heritage brands, respectfully exploring their historical archives to find products that contributed to their success. With Edsbyn, I found the version of the Fanett (1955) chair designed by Finnish designer Ilmari Tapiovaara, an icon in Scandinavian design history. This beautiful windsor chair can still be found across Sweden. So when I was asked to design an easy chair, I wanted to make it as ergonomic and elegant as possible, adding a small twist. I have used the

recognisable angles of the windsor chair as a stitching pattern in the upholstered seat, symbolically linking the company’s past with its evolving future.

We developed Eski in different versions, featuring four legs, a swivel base and even a design on skis. I think the design process should be fun so why not make a beautiful rocking chair while also paying homage to Edsbyn’s fascinating history as a producer of world-renowned skis.” /Luca Nichetto

Climate-Smart

All materials and surface treatments are approved for public environments with high wear and tear, and will last for many years without the need for maintenance.

Certified according to Möbelfakta

Technical quality standards for sustainability, stability, safety and for surface resistance. Environmental standards for materials and products.

ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001.

Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Edsbyn's selected palette, Color & Trim, showcases a small selection of the color schemes offered for standard orders.

All materials are carefully selected with environmental sustainability as our top priority. All finishes offered in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

Explore the complete selection of materials and colors available for you to choose from at my.edsbyn.com

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
